What customer value is delivered with holistic inventory visibility?

- A. Fulfilling orders via inventory in-transit.
- B. Incorporating customer sentiment into the order process.
- C. Providing only the best quality products.
- D. Reducing supply chain costs.

**Answer: A**

Explanation:

\* IBM Sterling Global Inventory Visibility benefits: Improve inventory utilization across the supply chain Improve product availability Avoid transit expediting costs

Note: The Sterling Global Inventory Visibility application coordinates global inventory across multiple sites, enterprises and participants. Managers can track inventory at internal and externalship nodes. It provides a real-time availability picture by synchronizing multiple demand (schedules, plans, quotes, orders, etc.) and supply types (on-hand, inbound, on purchase, scheduled, etc.). It identifies shortages and allows inventory planners to resolve problems by manipulating inventory balances, through allocation of sales orders, execution of purchases or movement of inventory. Data can be shared with external systems, customers, suppliers, and partners for demand and supply management. It provides the global visibility, ATP/ATD, reservations and tracking for an extended enterprise environment.
