With our exclusive online MSP Foundation MSP-Foundation exam training materials, you'll easily through MSP Foundation MSP-Foundation exam, Taking this into consideration, and in order to cater to the different requirements of people from different countries in the international market, we have prepared three kinds of versions of our MSP-Foundation

preparation questions in this website, namely, PDF version, online engine and software version, and you can choose any one of them as you like.

We hope you can get the most effective knowledge in the shortest possible time, MSP-Foundation practice material is the best choice with the best benefits, And we even offer some discounts back to you as small gifts at intervals.

NEW QUESTION: 1

Where can you set the automatic purchase order indicator in SAP Material Management? There are 2 correct answers to this question.

- A. Quota arrangement
- B. Material master.
- C. Business Partner
- D. Info record

Answer: A,B

NEW QUESTION: 2

Welche der folgenden Eigenschaften sind unabhängig vom Entwicklungslebenszyklus NICHT charakteristisch für gute Tests?
Modell?

- A. Jede Teststufe hat spezifische Ziele für die Teststufe
- B. Tester sind an der Überprüfung von Dokumenten beteiligt, sobald die Dokumente genehmigt wurden.
- C. Jeder Entwicklungsaktivität wird eine entsprechende Testaktivität zugeordnet.
- D. Tester sind an der Überprüfung von Dokumenten beteiligt, sobald Entwürfe verfügbar sind

Answer: B

NEW QUESTION: 3

A new report process containing a complex query is written, with high impact on the database. You want to collect basic statistics about query, such as the level of parallelism, total database time, and the number of I/O requests.

For the database instance STATISTICS_LEVEL, the initialization parameter is set to TYPICAL and the CONTROL_MANAGEMENT_PACK_ACCESS parameter is set to DIAGNOSTIC+TUNING.

What should you do to accomplish this task?

- A. Execute the query and view Active Session History (ASH) for information about the query.
- B. Use the DBMS_APPLICATION_INFO.SET_SESSION_LONGOPS procedure to monitor query execution and view the information from the V\$SESSION_LONGOPS view.
- C. Create a database operation, execute the query, and use the

DBMS_SQL_MONITOR.REPORT_SQL_MONITOR function to view the report.

D. Enable SQL trace for the query.

Answer: C

Explanation:

The REPORT_SQL_MONITOR function is used to return a SQL monitoring report

for a specific SQL statement.

Incorrect:

Not A: Not interested in session statistics, only in statistics for the particular SQL query.

Not B: We are interested in statistics, not tracing.

Not D: SET_SESSION_LONGOPS Procedure

This procedure sets a row in the V\$SESSION_LONGOPS view. This is a view that is used to

indicate the on-going progress of a long running operation.

Some Oracle functions, such as parallel execution and Server Managed Recovery, use rows in this view to indicate the status of, for example, a database backup.

Applications may use the SET_SESSION_LONGOPS procedure to advertise information on the progress of application specific long running tasks so that the progress can be monitored by way of the V\$SESSION_LONGOPS view.

NEW QUESTION: 4

Which of the following is a valid Oracle SQL statement to view the report?

A. SELECT * FROM DBMS_SQL_MONITOR.REPORT_SQL_MONITOR;

B. SELECT * FROM V\$SESSION_LONGOPS;

C. SELECT * FROM V\$SESSION_LONGOPS WHERE SQL_ID = '123456789';

D. SELECT * FROM V\$SESSION_LONGOPS WHERE SQL_ID = '123456789' AND OPERATION = 'Backup';

Answer: D
