**NEW QUESTION: 1**

You are creating a new non-recurring element. Assume proration is available in the legislation where the element has been created. Identify the two ways in which proration of an element can be achieved.

- A. Write a separate proration formula and attach the proration formula to the element definition.
- B. Only recurring elements can be prorated, hence create recurring element for proration.
- C. Create input values as effective start date and effective end date to enable proration for that element.
- D. Embed the proration calculation within the payroll formula and attach the proration group to the element definition.
- E. Attach retro event group to the element definition.

**Answer: C,D**

**NEW QUESTION: 2**

DRAG DROP

**Answer:**

Explanation:

**NEW QUESTION: 3**

Your company has a private cloud managed by a System Center 2012 Virtual Machine Manager (VMM) infrastructure. You need to add a hardware load balancing solution to the private cloud. You deploy the hardware load balancer to the network.

What should you do before you add the hardware load balancer to the fabric? (Each correct answer presents part of the solution, Choose two.)

- A. Create a User Role.
- B. Create a logical network.
- C. Create a VIP template.
- D. Create a Run As Account.
- E. Install a configuration provider.
- F. Install the Network Load Balancing (NLB) feature.

**Answer: C,E**

Explanation:

B: Before you can use a hardware load balancer or NLB, you must create associated virtual IP (VIP) templates.

D: To add supported hardware load balancers, you must install a configuration provider that is available from the load balancer manufacturer.
