NEW QUESTION: 2

Consider the following skills assessment spreadsheet for your test team (consisting of four team members):

This spreadsheet has three sections: technical expertise, testing skills and professionalism.

The skill levels for each skill area for both the "technical expertise" and "testing skills" sections have been rated on a four-point scale:

- E (Expert): indicates that a person has expert knowledge and experience in the skill area
- B (Beginner): indicates that a person has some knowledge and experience in the skill area but he/she is not autonomous
- W (Wants to learn): indicates that a person has no knowledge

or experience in the skill area but he/she wants to learn that skill

-NI (Not Interested): indicates that a person has no knowledge or experience in the skill area and he/she is not interested to learn that skill

The skill levels for each skill area of the "professionalism" section have been rated on a three point scale (H=High, M=Medium, L=Low).

You are using this skills assessment spreadsheet in order to define a training development plan for your test team.

Your objective is to fill the skill gaps by having at least a team member rated as an expert for each skill identified for the "technical expertise" and "testing skills" sections, and with the ability to train the other team members.

Considering the budget constraints you can send only one person to a training course.

Based only on the given information, which of the following answers would you expect to be the best option to achieve your objective?

K4 3 credits

- A. Send Mark to a test automation training course
- B. Send Alex to a performance testing training course
- C. Send Robert to a performance testing training course
- D. Send John to a performance testing training course

Answer: B

NEW QUESTION: 3

DRAG DROP

Answer:

Explanation:

Box1:

Box 2:

Box 3:

Box 4:

Box 5:

If you want to withdraw an invitation you have sent to an external user, you can revoke the invitation before it is accepted.

NEW QUESTION: 4

You have an Azure subscription that contains the resources in the following table.

Store1 contains a file share named Data. Data contains 5,000 files.

You need to synchronize the files in Data to an on-premises server named Server1.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a container instance.
- B. Register Server1.
- C. Create a sync group.
- D. Download an automation script.
- E. Install the Azure File Sync agent on Server1.

Answer: B,C,E

Explanation:

Step 1 (E): Install the Azure File Sync agent on Server1 The Azure File Sync agent is a downloadable package that enables Windows Server to be synced with an Azure file share Step 2

(D): Register Server1.

Register Windows Server with Storage Sync Service

Registering your Windows Server with a Storage Sync Service establishes a trust relationship between your server (or cluster) and the Storage Sync Service. Step 3 (C): Create a sync group and a cloud endpoint. A sync group defines the sync topology for a set of files. Endpoints within a sync group are kept in sync with each other. A sync group must contain one cloud endpoint, which represents an Azure file share and one or more server endpoints. A server endpoint represents a path on registered server.
