NEW QUESTION: 1

A company uses Dynamics 365 for Finance and Operations. You need to perform month-end close processes.

At which process steps should you perform the actions? To answer, drag the appropriate process steps to the appropriate actions. Each process step may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

NEW QUESTION: 2

A customer three-tiered web shop is hosted across four data centers with strict network security policies between the virtualized web servers and database servers. They want to continue to enforce the security policies after the machines are moved between the data centers. Which security solution will accomplish the desired outcome?

- A. Add HP TippingPoint N-series to the data centers
- B. Implement HP Virtual IPS (vIPS) security appliance
- C. Integrate HP Fortify into the virtual networks
- D. Combine HP Operations Manager (OM) with ArcSight

Answer: A

Explanation:

HP TippingPoint NX key benefits include:

* Simple but powerful security policies: The NGIPS allows security administrators to manage security policy with fine granularity. Administrators can set specific network security policies by network segment, by VLAN, or by Classless Inter-Domain Routing (CIDR). In addition, by utilizing the NGIPS platform's reputation capabilities and the Reputation Digital Vaccine, customers can now incorporate the use of IP addresses and DNS names into their security policy management.
