Free PDF Quiz SS-101 - Newest Marketing Cloud Social Studio Exam Latest Practice Materials

Stegschool Marketing Cloud Social Specialist SS-101 Salesforce updated audio training and Salesforce SS-101 Marketing Cloud Social Specialist interactive testing engine will not disappoint you in any way for sure.

All SS-101 Exam Prep Subscriptions provide access to the SS-101 Exam Preparation Course and SS-101 Sample Exams, It is universally accepted that learning is like building a house, laying a solid foundation is the key, and only with enough knowledge can a person pass the Salesforce SS-101 exam as well as get the related certification easily.

Convenience for reading and printing, Our SS-101 dumps torrent offers you the best reliable questions and answers which is also updated regularly to keep the accuracy of our Marketing Cloud Social Studio Exam dumps demo.

To those users ordered our exam questions more than once, they do not win the battle by accident, but choose the right way which is absolutely our SS-101 exam guide: Marketing Cloud Social Studio Exam.

Quality assurance, On condition that you have not passed SS-101 exam, you can require another exam training material for free or get full refund, The user passes the SS-101 exam and our market opens.

Free PDF Salesforce - SS-101 "Reliable Latest Practice Materials

Of course, we also fully consider the characteristics of the user, Salesforce SS-101 DUMPS PDF | 100% PASSING GUARANTEE OR MONEY BACK, Entering a strange environment, we will inevitably be very nervous.

The SS-101 study material provided by us has the high passing rate almost 98% to 100%, So you need a strong back behind you, Many candidates usually don't have abundant time.

If you are purchasing the whole SS-101 package, it will be easier for you to prepare for the exam, What's more, we will provide the most useful exam tips for you.

The high quality product like our SS-101 real exam has no need to advertise everywhere, the exam candidates are the best living and breathing ads, If you have any problem about our SS-101 exam resources, please feel free to contact with us and we will solve them for you with respect and great manner.

High learning efficiency.

NEW QUESTION: 1

Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar.

When you are finished performing all the tasks, click the 'Next' button.

Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam.

Overview

The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible

by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab

You may start the lab by clicking the Next button.

You plan to deploy several Azure virtual machines and to connect them to a virtual network named VNET1007.

You need to ensure that future virtual machines on VNET1007 can register their name in an internal DNS zone named corp8548984.com. The zone must NOT be hosted on a virtual machine.

What should you do from Azure Cloud Shell?

To complete this task, start Azure Cloud Shell and select PowerShell (Linux), Click Show Advanced settings, and then enter corp8548984n1 in the Storage account text box and File1 share text box. Click Create storage, and then complete the task.

A. Step 1: Launch Cloud Shell from the top navigation of the Azure portal.

Step 2: Select PowerShell

When you start the Azure Cloud Shell for the first time, you will be prompted to create a storage account in order to associate a new Azure File Share to persist files across sessions.

Step 3: Click Show Advanced settings.

Step 4: Enter corp8548984n1 in the Storage account text box and File1 share text box. Click Create storage.

Step 5: Enter the following command at the powershell command prompt:

```
New-AzDnsZone -Name "corp8548984.com"  
-ResourceGroupName "mycloudshell"  
-ZoneType Private  
-RegistrationVirtualNetworkId VNET1007
```

Note: A DNS zone is created by using the New-AzDnsZone cmdlet with a value of Private for the ZoneType parameter.

B. Step 1: Launch Cloud Shell from the top navigation of the Azure portal.

Step 2: Select PowerShell

When you start the Azure Cloud Shell for the first time, you

will be prompted to create a storage account in order to associate a new Azure File Share to persist files across sessions.

Step 3: Click Show Advanced settings.

Step 4: Enter corp8548984n1 in the Storage account text box and File1 share text box. Click Create storage.

Step 5: Enter the following command at the powershell command prompt:

```
New-AzDnsZone -Name "corp8548984.com"  
-ResourceGroupName "mycloudshell"  
-ZoneType Private  
-RegistrationVirtualNetworkId VNET1007
```

Note: A DNS zone is created by using the New-AzDnsZone cmdlet with a value of Private for the ZoneType parameter.

Answer: B

Explanation:

NEW QUESTION: 2

Are the following statements regarding The Managing Product Delivery process true or false?

1. Towards the end of the last stage, this process will invoke the Closing a Project process
2. The Team Manager obtains approval for completed products from the authorities identified in the Product Description

- A. Only 1 is true
- B. Only 2 is true
- C. Both 1 and 2 are true
- D. Both 1 and 2 are false

Answer: B

NEW QUESTION: 3

A Windows Azure application stores data in a SQL Azure database.

The application will start an operation that includes three insert statements.

You need to recommend an approach for rolling back the entire operation if the connection to SQL Azure is lost.

What should you recommend?

- A. Create a stored procedure in the database that wraps the

insert statements in a TRY CATCH block.

B. Ensure that all statements execute in the same database transaction.

C. Open a new connection to the database. Use a separate transaction scope to roll back the original operation.

D. Create a stored procedure in the database that wraps the insert statements in a TRANSACTION block.

Answer: B

NEW QUESTION: 4

HOT SPOT

You are planning the certificates for Northwind Traders.

You need to identify the certificate configurations required for Appl.

How should you configure the certificate request? To answer, select the appropriate options in the answer area.

Answer:

Explanation:

Explanation:

Box 1: Appl.public.northwindtraders.com

* From the scenario:

Users must be able to access Appl from the Internet.

The servers in the perimeter network are accessible from the Internet by using a domain name suffix of public.northwindtraders.com.

Configure a web application proxy on Server6.

Box 2: Server Authentication

Certificates that server programs use to authenticate themselves to clients

* From the scenario:

Configure a web application proxy on Server6.

Reference: How CA Certificates Work

[https://technet.microsoft.com/en-us/library/cc737264\(v=ws.10\).aspx](https://technet.microsoft.com/en-us/library/cc737264(v=ws.10).aspx)

Topic 7, Alpine Ski

Overview

Alpine Ski House provides vacation travel accommodations. Its main office is in Vancouver.

Alpine Ski House also has branch offices in Montreal, Denver, and New York.

An additional sales office is located in Los Angeles. This office has client devices only.

All servers in each office run Windows Server 2012 R2. All client devices in each office run Windows 8.1.

Alpine Ski House plans to acquire another company named Margie's Travel. Margie's Travel has an AD DS domain named margiestravel.com.

Danner and New York

The Denver and New York offices have their own child domain named us.alpineskihouse.com.

The domain controllers are displayed in the following table:

Vancouver and Montreal

Alpine Ski House has an Active Directory Domain Services (AD DS) domain named aplineskihouse.com for the Vancouver and Montreal offices. The forest and domain functional levels are set to Windows Server 2008. The domain controllers in the domain contain Dynamic Host Configuration Protocol (DHCP) servers and DNS servers. The domain controllers are displayed in the following table:

The Vancouver office also has a certification authority (CA) installed on a server named ALP- CA01.

Business Requirements

Growth

An additional branch office is planned in an extremely remote, mountainous location that does not have traditional access to the Internet.

The remote branch office location will use a high-latency, low-bandwidth satellite connection to the Denver and Vancouver offices.

The Los Angeles office will be expanded to include sales and billing staff. The Los Angeles location will not contain IT staff.

File Management

Currently, each office has a dedicated file share that is hosted on a domain controller. The company plans to implement a new file sharing capability to synchronize data between offices and to maximize performance for locating files that are saved in a different branch office. Sales users in the Los Angeles office must also be able to retrieve file data from each branch office.

Recovery time objective

The business requires that the data stored in AD DS must be recovered within an hour. This data includes user accounts, computer accounts, groups, and other objects. Any customized attributes must also be recovered. The current backup solution uses a tape drive, which requires a minimum of two hours between notification and recovery.

Office 365

Alpine Ski House purchased Office 365 Enterprise E3 licenses for all users in the organization.

Technical Requirements

Existing environment

Users in the Montreal office of Alpine Ski House report slow times to log on to their devices. An administrator determines that users in the Montreal location occasionally authenticate to a domain controller with an IP address of 172.16.0.10/24. All authentication requests must first be attempted in the same location as the client device that is being authenticated.

Growth

The remote branch office must have a single domain controller named REMOTE- DC01.us.aplineskihouse.com.

The replication between domains must either use best-effort or low-cost replication. After the expansion, authentication must occur locally.

Any server placed in the Los Angeles office must not contain cached passwords.

File management

Where possible, the new file management solution must be centralized. If supported, the data must be stored in a single location in each branch office.

Acquisition

After acquiring Margie's Travel, all AD DS objects, including user account passwords, must be migrated to the alpiniskihouse.com domain. Alpine Ski House plans to use the Active Directory Migration Tool (ADMT) to complete the migration process.

The password complexity requirements for the margiestravel.com domain are unknown. Users should not be forced to change their passwords after migrating their user accounts. Some computer objects will be renamed during the migration.

Office 365

Alpine Ski House must use Microsoft Azure to facilitate directory synchronization (DirSync) with Office 365. The DirSync utility must be installed on a virtual machine in Microsoft Azure.
