NEW QUESTION: 1
There is a concern that there are not enough physical switch ports available for the Isilon cluster in a new implementation with SMB and ICAP requirements. What course of action should be taken?
A. Create a SmartConnect zone across all ports but do not connect all of them

B. Leave the archival nodes off the external network switch to save switch ports
C. The customer needs to provide more switch ports for the implementation
D. Team the NICs across the nodes and just add one connection to minimize the ports required.
Answer: C

NEW QUESTION: 2
An entity that owns a new professional basketball team sells season tickets to its team's games. The season lasts from November through April with 10 games played each month. In Year 1. The entity collected US $3 million from season-ticket sales for the Year 1 - Year 2 season. Its fiscal year-end is December 31. Based on this information.
The enterprise should:
A. Report income of US $1 million on its Year 2 income statement.
B. Report income of US $3 million on its Year 1 income statement.
C. Report a liability for unearned income of US $3 million on its December 31, Year 1, balance sheet.
D. Report a liability for unearned income of US $2 million on its December 31, Year 1, balance sheet.
Answer: D
Explanation:
The collections represent a liability deferred income). The income recognition criteria are not met with respect to the season ticket collections until the receipt of future economic benefits is sufficiently certain. Such certainty exists with respect to collections related to the games played as of the balance sheet date. Accordingly, the entity should recognize US $1 million as income in Year 1 [(US $3,000,000 - 6 months) x 2 months]. The remaining US $2 million should be reported as a liability.
