Answer:
Explanation:

Explanation

Box 1: region

The player's region will be used to load-balance data.
Choosing the PartitionKey.
The core of any table's design is based on its scalability, the queries used to access it, and storage operation requirements. The PartitionKey values you choose will dictate how a table will be partitioned and the type of queries that can be used. Storage operations, in particular inserts, can also affect your choice of PartitionKey values.
Box 2: email
Not phone number some players may not have a phone number.
Box 3: CloudTable
Box 4 : TableOperation query =..
Box 5: TableResult
