NEW QUESTION: 1
You are in the process of building an online gaming site for a client and one of the requirements is that it must be able to process vast amounts of data easily. Which AWS Service would be very helpful in processing all this data?
A. AWS Direct Connect
B. AWS Data Pipeline
C. Amazon EMR

D. Amazon S3
Answer: C
Explanation:
Managing and analyzing high data volumes produced by online games platforms can be difficult. The back-end infrastructures of online games can be challenging to maintain and operate. Peak usage periods, multiple players, and high volumes of write operations are some of the most common problems that operations teams face.
Amazon Elastic MapReduce (Amazon EMR) is a service that processes vast amounts of data easily.
Input data can be retrieved from web server logs stored on Amazon S3 or from player data stored in Amazon DynamoDB tables to run analytics on player behavior, usage patterns, etc. Those results can be stored again on Amazon S3, or inserted in a relational database for further analysis with classic business intelligence tools.

NEW QUESTION: 2
Which two types of devices on Cisco Unified Communications Manager support iSAC? (Choose two.)
A. H.323
B. SCCP
C. SIP
D. Music on Hold server
E. MGCP
Answer: B,C
Explanation:
Explanation
iSAC-Internet Speech Audio Codec (iSAC) is an adaptive wideband audio codec, specially designed to deliver wideband sound quality with low delay in both low and medium-bit rate applications. Using an adaptive bit rate of between 10 and 32 kb/s, iSAC provides audio quality approaching that of G.722 while using less than half the bandwidth. In deployments with significant packet loss, delay, or jitter, such as over a WAN, iSAC audio quality is superior to that of G.722 due to its robustness. iSAC is supported for SIP and SCCP devices.
The Cisco Unified Communications Manager IP Voice Media Streaming App (IPVMSApp), which includes Media Termination Point, Conference Bridge, Music on Hold Server, and Annunciator does not support iSAC.
MGCP devices are not supported.

NEW QUESTION: 3
Who is responsible for the Help Desk support withacMPS

contract?
A. HP
B. Channel Managed Print Services partner
C. Customer
D. Specialized Service Company
Answer: A
