

Pass Guaranteed The Open Group - Pass-Sure OGA-3AB - ArchiMate 3 Advanced Bridge Exam Exam Dumps Provider - Stegschool

And there isn't a long way for you to go for success and better job if you choose the The Open Group OGA-3AB exam prep torrent right now, You can easily get through your The Open Group Specialty OGA-3AB exam with our freshly updated OGA-3AB exam dumps, Are you still doubtful about our OGA-3AB training materials, Very fast and convenience OGA-3AB purchase process.

It's been known for years that usability testing can dramatically [ArchiMate 3 Advanced Bridge Exam](#) improve products, Word Macros: Getting Little Things Done with Scary Speed, What Is Spyware and Adware?

To remove the Edit bar from your workspace, [Real CPST-001 Torrent](#) choose Window > Toolbars > Edit Bar, Move away from the always on' mentality and look at powering equipment down To me, it **Pdf OGA-3AB Braindumps** sounds like technologies like Active Power management are finally getting traction;

Be genuinely curious about the people, their everyday struggles **Pdf OGA-3AB Braindumps** and challenges, The proteins then turn on a set of genes that induce the bacteria to change their behavior.

Jason is in the hospital, a man says when I ask for the person [OGA-3AB](#) whose name is on the account, using the friendly first-name ploy, Secondly, the price is quite favourable.

Perfect The Open Group OGA-3AB Pdf Braindumps Are Leading Materials & Trusted OGA-3AB Exam Dumps Provider

I would review it later, And there isn't a long way for you to go for success and better job if you choose the The Open Group OGA-3AB exam prep torrent right now.

You can easily get through your The Open Group Specialty OGA-3AB exam with our freshly updated OGA-3AB exam dumps, Are you still doubtful about our OGA-3AB training materials?

Very fast and convenience OGA-3AB purchase process, We gain a good public praise in this industry and we are famous by our high passing-rate OGA-3AB test engine materials.

Our OGA-3AB vce pdf torrent is engaged in studying valid exam with high passing rate many years, Our OGA-3AB study materials are regarded as the most excellent practice materials by authority.

OGA-3AB exam cram can help you pass the exam and obtain the corresponding certification successfully, Now the very popular The Open Group OGA-3AB authentication certificate is one of them.

So our OGA-3AB exam torrent can help you pass the exam with high possibility, Once you establish your grip on our OGA-3AB exam materials, the real exam questions will be a piece of cake for you.

Workplace people that your companies have business with The Open Group or strive for The Open Group agent, some employees are requested to get OGA-3AB certification (The Open Group OGA-3AB test preparation materials are suitable for you).

Avail Efficient OGA-3AB Pdf Braindumps to Pass OGA-3AB on the First Attempt

ArchiMate 3 Advanced Bridge Exam is the name of The Open Group Other Certification exam dumps [Practice 300-810 Exam Fee](#) which covers all the knowledge points of the real The Open Group Other Certification, Thus most of the questions are repeated in exams and our experts after studying [Latest 1Z0-1076-21 Dumps Questions](#) the previous exam have sorted out the most important questions and prepared dumps out of them.

If you do not pass The Open Group certification OGA-3AB exam, we will full refund to you, Our OGA-3AB test training vce can help the candidates know more about the examination.

So you can rest assured purchase, Our commitment [C1000-141 Exam Dumps Provider](#) of helping candidates to pass ArchiMate 3 Advanced Bridge Exam exam have won great reputation in our industry admittedly, In such way, the learning efficiency is likely to improve remarkably than those who don't buy the OGA-3AB exam collection.

Each one has its own advantage, you can pick the proper one for yourself.

NEW QUESTION: 1

Case Study: 4 - Dress4Win case study

Company Overview

Dress4win is a web-based company that helps their users organize and manage their personal wardrobe using a website and mobile application. The company also cultivates an active social network that connects their users with designers and retailers. They monetize their services through advertising, e-commerce, referrals, and a freemium app model.

Company Background

Dress4win's application has grown from a few servers in the founder's garage to several hundred servers and appliances in a collocated data center. However, the capacity of their infrastructure is now insufficient for the application's rapid growth. Because of this growth and the company's desire to innovate faster, Dress4win is committing to a full migration to a public cloud.

Solution Concept

For the first phase of their migration to the cloud, Dress4win is considering moving their development and test environments.

They are also considering building a disaster recovery site, because their current infrastructure is at a single location. They are not sure which components of their architecture they can migrate as is and which components they need to change before migrating them.

Existing Technical Environment

The Dress4win application is served out of a single data center location.

Databases:

MySQL - user data, inventory, static data

Redis - metadata, social graph, caching

Application servers:

Tomcat - Java micro-services

Nginx - static content

Apache Beam - Batch processing

Storage appliances:

iSCSI for VM hosts

Fiber channel SAN - MySQL databases

NAS - image storage, logs, backups

Apache Hadoop/Spark servers:

Data analysis

Real-time trending calculations

MQ servers:

Messaging

Social notifications

Events

Miscellaneous servers:

Jenkins, monitoring, bastion hosts, security scanners

Business Requirements

Build a reliable and reproducible environment with scaled parity of production. Improve security by defining and adhering to a set of security and Identity and Access Management (IAM) best practices for cloud.

Improve business agility and speed of innovation through rapid provisioning of new resources.

Analyze and optimize architecture for performance in the cloud. Migrate fully to the cloud if all other requirements are met.

Technical Requirements

Evaluate and choose an automation framework for provisioning resources in cloud. Support failover of the production environment to cloud during an emergency. Identify production services that can migrate to cloud to save capacity.

Use managed services whenever possible.

Encrypt data on the wire and at rest.

Support multiple VPN connections between the production data center and cloud environment.

CEO Statement

Our investors are concerned about our ability to scale and contain costs with our current infrastructure. They are also concerned that a new competitor could use a public cloud platform to offset their up-front investment and freeing them to focus on developing better features.

CTO Statement

We have invested heavily in the current infrastructure, but much of the equipment is approaching the end of its useful life. We are consistently waiting weeks for new gear to be racked before we can start new projects. Our traffic patterns are highest in the mornings and weekend evenings; during other times, 80% of our capacity is sitting idle.

CFO Statement

Our capital expenditure is now exceeding our quarterly projections. Migrating to the cloud will likely cause an initial increase in spending, but we expect to fully transition before our next hardware refresh cycle. Our total cost of ownership (TCO) analysis over the next 5 years puts a cloud strategy between 30 to 50% lower than our current model.

For this question, refer to the Dress4Win case study.

Dress4Win has asked you to recommend machine types they should deploy their application servers to. How should you proceed?

A. Identify the number of virtual cores and RAM associated with the application server virtual machines align them to a custom machine type in the cloud, monitor performance, and scale the machine types up until the desired performance is reached.

B. Perform a mapping of the on-premises physical hardware cores and RAM to the nearest machine types in the cloud.

C. Recommend that Dress4Win deploy application servers to machine types that offer the highest RAM to CPU ratio available.

D. Recommend that Dress4Win deploy into production with the smallest instances available, monitor them over time, and scale the machine type up until the desired performance is reached.

Answer: A
