Highly Authoritative Professional-Data-Engineer Exam Prep Easy for You to Pass Professional-Data-Engineer Exam And also you can choose to wait the updating Google Certified Professional Data Engineer Exam or change to other dumps if you have other test, We believe that our study materials will have the ability to help all people pass their Professional-Data-Engineer exam and get the related exam in the near future.

About considerate after service, Wrong answers and explanations can't exist in our Professional-Data-Engineer premium VCE file, A group of experts and certified trainers who dedicated to the 300-720 Exam Simulator Google Certified Professional Data Engineer Exam dumps torrent for many years, so the exam materials are totally trusted.

Time, effort and also money will be saved, As the development of the science and technology is fast, so the information of the Professional-Data-Engineer exam materials changes fast accordingly.

You can more easily master and simplify important test sites with Professional-Data-Engineer study materials, Now that more people are using mobile phones to learn our Professional-Data-Engineer study materials, you can also choose the one you like.

The price is set reasonably, Professional-Data-Engineer actual questions & answers is the trustworthy source which can contribute to your actual exam test.

NEW QUESTION: 1

Case Study 1 - Litware, Inc.

Overview

Litware, Inc. is an online retailer that uses Microsoft Power Bl dashboards and reports. The company plans to leverage data from Microsoft SQL Server databases, Microsoft Excel files,

text files, and several other data sources.

Litware uses Azure Active Directory (Azure AD) to authenticate users.

Existing Environment

Sales Data

Litware has online sales data that has the SQL schema shown in the following table.

In the Date table, the dateid column has a format of yyyymmdd and the month column has a format of yyyymm. The week column in the Date table and the weekid column in the Weekly_Returns table have a format of yyyyww. The regionid column can be managed by only one sales manager.

Data Concerns

You are concerned with the quality and completeness of the sales data. You plan to verify the sales data for negative sales amounts.

Reporting Requirements

Litware identifies the following technical requirements:

- Executives require a visual that shows sales by region.
- Regional managers require a visual to analyze weekly sales and

returns.

- Sales managers must be able to see the sales data of their respective region only.
- The sales managers require a visual to analyze sales performance

versus sales targets.

- The sale department requires reports that contain the number of sales transactions.
- Users must be able to see the month in reports as shown in the

following example: Feb 2020.

- The customer service department requires a visual that can be filtered by both sales month and ship month independently. You need to create a relationship between the Weekly_Returns table and the Date table to meet the reporting requirements of the regional managers.

What should you do?

- A. Create a new table based on the Date table where date-id is unique, and then create a many-to- many relationship to Weekly_Return.
- **B.** In the Weekly.Returns table, create a new calculated column named date-id in a format of yyyymmdd and use the calculated column to create a relationship to the Date table.
- C. Add the Weekly_Returns data to the Sales table by using related DAX functions.

Answer: B

NEW QUESTION: 2

Note: This question is part of a series of questions that

present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You manage Windows 10 devices by using Microsoft System Center Configuration Manager (Current Branch).

You configure pilot co-management.

You add a new device named Device1 to the domain. You install the Configuration Manager client on Device1.

You need to ensure that you can manage Devicel by using Microsoft Intune and Configuration Manager.

Solution: You add Devicel to an Active Directory group.

Does this meet the goal?

A. Yes

B. No

Answer: A
